LAKE COUNTY
Resource Conservation District

Request for Proposals (RFP) #2026-05
Hazardous Tree Removal Component – Greater Cobb Area
Question & Response Document

1. **Will there be a tour of the project?**
   There will be no pre-bid tour of the project hosted by the Lake County Resource Conservation District (LCRCD). Proposers are strongly encouraged to view the sites independently prior to preparing a quote. All identified project areas are publicly accessible.

2. **Is this work subject to California Prevailing Wage?**
   Yes, this project is subject to California Prevailing Wage requirements and requires the awarded contractor to have an active public works contractor number with the Department of Industrial Relations (DIR) and to submit certified payroll records as required to DIR.

3. **Does LCRCD have an agreement with Quackenbush Resource Recovery to coordinate the disposal of generated material?**
   LCRCD does not have an existing agreement with Quackenbush. All coordination with Quackenbush Resource Recovery will be the responsibility of the awarded contractor. This cost should be included in the total proposed project cost.

4. **Can C-27/A contractors bid on this or is it only C-49's?**
   This project requires the selected Contractor to have either a valid D-49 Tree Service License, or C-49 Tree and Palm Contractor License equivalent. The Proposer must indicate and provide evidence that they have obtained this license at the time of submitting their proposal.

5. **There is a duplicate Tree ID included in the full tree inventory (#483), should this be removed or are these two separate trees?**
   There are two separate trees for entry #483. This will be updated in the final tree inventory to #483-1 and #483-2.

6. **Are you able to provide a SHP file of the identified hazardous trees?**
   A downloadable SHP file identifying the included hazardous trees has been added to the RFP webpage.
